

„Baby food – challenges in analysis and evaluation“

November 15th and 16th, 2022 (Tuesday and Wednesday)

09:00 to 12:30 (each day)

ONLINE-Workshop

Analysing baby food and evaluation of results is often challenging: specific residue definitions and maximum levels in combination with high expectations of the baby food industry. Our workshop will update you related to legal requirements and market demands to provide you good solutions for your daily work.

Speakers

Dr. Silke Bruns

Dr. Günter Lach

Dr. Andreas-Sascha Wendt

Lach & Bruns Partnerschaft

Agenda

November 15th, 2022 (Tuesday)

09:00 Welcome, introductions

09:15 Pesticides in baby food (part I): What´s different to “normal” food?

Legal background, maximum levels, residue definitions, etc.

10:30 Coffee break

11:00 Pesticides in baby food (part II)

The tricky rules for supplementary food (“processed cereal-based foods and baby foods”).

11:45 Special: 10 years of phosphonic acid

Sources, occurrence, evaluation

12:15 Questions and discussion

12:30 End of day 1

November 16th, 2022 (Wednesday)

09:00 Contaminants in baby food

From heavy metals via mycotoxins to PFAS - a wide range of challenges.

10:30 Coffee break

11:00 Multiple source substances – pesticides, contaminants or both?

Chlorate, bromide, DEET, anthraquinone, phthalimide... Many substances occur (mainly) as contaminants but must be evaluated as pesticides – or not?

12:15 Questions and discussion

12:30 End of workshop

Price: € 890 plus VAT if applicable

includes participation on both days, electronic handout (as pdf files), certificate of participation

To register, please use the form on the next page. Closing date: **November 2nd, 2022**

Please send your topics, questions and case studies for the online workshop by November 2nd, 2022, to as.wendt@lach-bruns.de. If you like to have your topic discussed anonymously, please make a note.
